Ref. № 2572
Dated 07.10.08

To Whom It May Concern:

Hereby I would like to give my recommendation for Mega Business Software, Korolenko 18, #6, Kharkiv, Ukraine as a software development company. Though Omega and MBS relationships do not have a very long history, our encounter has been quite fruitful and mutually beneficial.

Omega Autopostavka is a leading regional auto and parts dealer doing business since 1990. We have solid international relationships with vehicle and parts manufacturers, and have created a robust and reliable goods distribution network.

We employed MBS for a complex automation project for our supplies, logistics, warehouse management, manufacture control, financial monitoring, and other activities. They delivered a solution based on Oracle e-Business Suite.

MBS is distinguishable for a high professional level of their employees, keeping their commitments and excellent communication skills. I consider their ability to analyse problems and offer different solutions as one of the most important of their qualities. All of the project milestones have been delivered in time and with high quality.

I can recommend MBS as a good and reliable partner for software development projects. Should you have any questions about MBS' work for Omega, please feel free to contact me at +38 057 713 68 97.
