To Whom It May Concern:

Hereby I would like to give my recommendation for Mega Business Software, Kharkiv, Ukraine as a software development company. MBS was chosen as the main subcontractor for one of our products and we consider the choice to be the right one. The project that MBS developed was delivered with the outmost quality and in a timely manner. SHAPE Services and MBS have developed good relationships and we are planning to outsource some of our new projects to them.

We value MBS for a high professional level of their employees and well considered organisation of the development process. Their excellent communication skills and analytical capacity were also very useful for the project.

I would like to recommend MBS for those, looking for a reliable, skilled and flexible software development partner.

If you wish to discuss any particular aspects of my recommendation, please feel free to contact me at [ib@shapeservices.com](mailto:ib@shapeservices.com).
